The company aimed to provide fast and solution-oriented service especially to the European market with **ASAŞ GmbH**, which was established in **2018** in Koblenz, adjacent to Neuwied region in **Germany**. With the establishment of subsidiary, which is positioned as a logistics and service center in an area of **880.000 m²**, of which **72,793 m²** is closed, the European activities of the company continue with a rapid growth

Video

ASAŞ and SUSTAINABILITY

Our main goal is to add value to our stakeholders and lead our target markets by creating innovative solutions with our expertise and technological capabilities, starting from raw material supply to the last stage of production.

Our Sustainability Policy

We have created our sustainability strategy by evaluating our company's environmental, social and economic impact areas, our stakeholders' expectations and corporate strategic planning together with global goals. Annual Sustainability Reports, in which we explain our corporate goals and sustainability performances, are shared with all our stakeholders. As ASAŞ, in our journey towards sustainability, we aim for value-driven, trustworthy, and sustainable growth through our adopted Sustainability Policy and strategic goals to achieve our vision.

We have built our sustainability approach on 4 fundamental principles with the motto:

Collaborative Business Approach

Collaborative and ethical business approach which adds value to the stakeholders

Reliable Business Approach

Reliable business approach which prioritizes the occupational health and ergonomics

Environment-friendly Business Approach

Environment-friendly and innovative production approach which reduces the carbon footprint

Sustainable Development-focused Business Approach

Global development approach which supports the economic and social development

Product-based EPD (Environmental Product Declaration) Certification

We have EPD certificates for the product types specified within our Aluminium Profile, Aluminium Composite Panel, Aluminium Flat Products, PVC and Roller Shutter business centres

Calculation of Greenhouse Gas Emissions According to ISO 14064-1 Standard

We calculate and verify our Corporate Carbon Footprint every year according to ISO 14064-1 Standard

ASI (Aluminium Stewardship Initiative) Certification

We have ASI Certification which shows that we support international green production and contribute to sustainable aluminium production

Green Energy

We have the I-REC Certificate showing that we obtain 100% of the electricity we consume from renewable energy sources

Recycling

In 2023, we reached 59% recycled material usage rate at the Aluminium Profile Plant. We aim to increase this rate further this year and in the coming years

ASAŞ's New Handle Series Holdline

Holdline stands out as the most comprehensive and robust handle series in the industry!

Holdline, which offers a harmonious design in different systems with its innovative approach in handle design, works in perfect harmony with all ASAŞ products in terms of aesthetics and safety.

Adding value with purity and ergonomic touch, Holdline handle series offers functionality and elegance together

Visual Integrity

Regardless which system is used, the Holdline handle family offers holistic visual harmony with its similar architectural line

Quality Policy

All Holdline family of arm products are certified in the highest classes in accordance with international standards (EN 13126-3: 2011, EN 1670: 2007).

Customisation

Harmonise your profiles and accessories as you wish with the application option in all RAL colours

Award-winning Design

Our Holdline handle series also make a difference with the design awards it has received

WINDOW HANDLE SERIES

Get perfection in every detail with Holdline window handles.

ASAŞ's innovative window handles offer a wide range of options with three different groups: handle with spindle (can also be used with PVC channel systems), handle with fork and removable handle.

Manufactured with high-strength materials and modern design, these handles combine aesthetic appearance and practical use while adding value to your spaces.

DOOR HANDLE SERIES

Reflect your style with Holdline door handles, feel the elegance in every touch.

Holdline door handles make a difference by offering solutions suitable for every need and taste with door handles on backplate and on square rose options.

While door handles on backplate offer a modern and stylish look, on square rose models attract attention with their minimalist and simple design. Both options offer long-lasting use by combining with ASAŞ quality and durability.
